This deep **Soul Clearing** session is especially for those on the journey whose Soul is requesting a change, are feeling stuck, wounded, or experiencing resistance and unable to shift on their own.

During this 90-minute session, a sacred and supportive space is created as you are gently guided into a deeply relaxed state and connected with your inner guidance system. Empathic Energy Tune Up

An empathic vibrational energy tune-up to release the buildup of emotional energies you've taken on.

During this 60-minute session – a sacred and supportive space is created as you shift into the Observer. From this place, using the higher vibrational emotions of Acceptance, Allowance and Contribution you are guided through a step-by-step **Empathic Energy Tune Up** meant to cleanse and re-balance all levels of your being.

Once you practice and understand the process, you can use it to identify and transmute whatever energies you pick up on or receive, wherever you are.

I am also so grateful for you. In a sense, at least half of the things I learned, I could apply because of the perspective you provided. And you always cheered me on!

About Me:

♥A Way Shower

♥An EMQ© -(Empathic Frequency Holder)

♥A Transformational Mentor

An old Soul with a loving, empathic ♥heart whose passion and purpose includes helping other empaths and frequency holders to take back the command or authority of their own energy.

I enjoy witnessing clients raise their ♥heart's vibrational resonance as they release stored energies that no longer serve them and embrace their sovereignty.

My journey working with energy began in 1982. As I continued my energy healing studies and personal clearing practice, I reached a deeper understanding of how to intentionally work with energy on all levels of my being. (physically, mentally, emotionally, and spiritually)

This is when I learned to transmute energy I had stored from past emotional wounds, traumatic experiences, and other people's energy my empathic nature had taken on! As I cleared these stored energies, I invited Divine Love to fill the space created. This naturally raised my ♥heart's vibrational resonance and deepened my connection to the Divine in me.

Over the past 30+ years, I have studied and incorporated into my practice many amazing energy healing modalities and methods, now included in my "energy clearing toolbox".

I remain grateful for the Divine Knowledge and Truth received through research, Self-discovery, and practical application for all the energetic resources I access during any client sessions.
